Organized by CPD Committee Lahore NRC-ICAP

ABOUT THE WEBINAR

Every regulatory law brings new challenges, requirements and expectations for the businesses and professionals. For Chartered Accountants, be in practice or industry, besides compliance with provisions of primary regulatory law i.e. Companies Act, 2017, Compliance with other laws is equally necessary and important.

These laws primarily deal with Employees' benefits laws i.e. gratuity/provident fund, social security contributions in the form of Social Security/EOBI, and payments related to workers' funds such as WWF and WPPF. WWF has been recently promulgated to the provinces which require special consideration. Compliance with these laws brings significant challenges, especially for Small and Medium Sized Businesses. Knowledge of application of these laws is thus paramount for Chartered Accountants in practice as well.

In order to understand these laws better from regulatory, accounting, auditing, and taxation perspective, CPD Committee Lahore has planned a detailed webinar that would include a debate about the current challenges and expectations regarding application of these laws, we have invited prominent speakers and panelists for this session. Their wealth of experience will be very useful for our audience InshAllah.
