Introduction

Finance to Fortune: The Future of Intelligent Investing Through PSX and Beyond is designed to help finance professionals and investors transform market insight into disciplined wealth creation. The session explores how research, risk management, and strategic asset allocation can unlock opportunities in Pakistan's capital markets and beyond.

With a focused discussion on PSX equities, sukuk, real estate, private equity, IPOs, and M&A, participants will gain practical tools to evaluate opportunities, diversify portfolios, manage downside risk, and plan timely exits while pursuing sustainable, above-benchmark returns.

Who Should Attend

- Chartered Accountants, Affiliates, and finance students seeking practical investment insight
- Finance professionals, portfolio managers, and investment advisors
- Investors seeking a stronger understanding of PSX and wealth-building strategies
- Business leaders, family offices, and HNWIs exploring diversified investment avenues
- Professionals interested in Shariah-compliant and global investment opportunities

Key Learning Areas

- PSX market trends, equity selection, and market-cycle analysis
- Portfolio allocation, diversification, and risk management
- Sukuk, real estate, private equity, IPOs, and M&A opportunities
- Shariah-enabled investment solutions and ethical wealth creation
- FDI outlook, Pakistan's investment potential, and global market access
- Practical case studies on value creation, returns, and exit planning

Speaker

Mr. Husnain is a Chartered Accountant and wealth manager with 15 years of experience advising boards, family offices, and ultra-high-net-worth individuals on portfolio management. A Cambridge Judge Business School alumnus, he has worked with leading investment houses and facilitated foreign direct investment into Pakistan.

He is the Founder of Blackstone Islamic Global (BIG Pakistan), a Shariah-enabled investment consultancy focused on PSX equities, sukuk, real estate, private equity, Pakistan and U.S. IPOs, and M&A. His research-driven approach helps investors pursue above-benchmark returns, sustainable wealth creation, and timely exits. Beyond finance, his research on Islamic philosophy at the University of Oxford reflects the depth of perspective he brings to advisory.
